

Medallion

MORE STORAGE OPTIONS

- Right rear and left front compartments offer a standard depth of 21" to accommodate stair chairs and other equipment storage demands.
- 170" body length maximizes exterior storage.

MEDALLIONS OFFER INNOVATION AND DURABLE CONSTRUCTION

Exclusive!

CENTRALLY DUCTED CLIMATE CONTROL

- Superior air flow circulation.
- Heater and AC maximized to deliver every last BTU.
- Automatic digital thermostat.
- Simply the BEST!

MEDALLION 80

Medallions are available in long and short wheelbase models. Our Medallion 80 offers 147" body with plenty of storage space.

OXYGEN UNLOADERS

Proper weight distribution allows for M and H Oxygen Unloaders to be installed in PL Medallion ambulance models.

New! 3" LOWERED SIDE SKIRTS ON BOTH SIDES OF VEHICLE

- Better access to side entrance door and easier loading/unloading of the oxygen cylinder.
- Intermediate side entrance door steps with non skid stepping surfaces.
- Lowered cab running boards for easier step in height to cab.

Multiplexed Technology and Reliability

Right side auxiliary controls for lighting, climate control and radio speakers keep the attendant safely seated.

The new rig is GREAT! Please send our best to everyone at PL Custom. They are great American craftsmen and women and should be very proud of their work. Their skills and accomplishments play a big role in saving many lives. Our citizens depend on us and we depend on the equipment we respond in! PL Custom will always be on the top of our future lists!

Larry Appel, EMT-B EMS Lt,
Hanover Fire Company #1
